Career Objective

To take up a challenging role as a front end developer with proven ability to collaborate with senior developers. I could utilize my skills in web design and front end web development by expressing my innovative and creative skills or self and organization growth.

Education

Bachelor Of Engineering - Computer Science And Engineering

Sri Ramakrishna Institute Of Technology At Coimbatore, India | August 2019 - May 2023

Skills

- Html5
- Css3
- Javascript
- React.Js
- Bootstrap
- Git
- Responsive Web Design

Projects

1. News Website

Utilized React.js and the New York Times API, which allow user to read and search articles and current news around the globe.

2. Rock Paper Scissor

Using JavaScript, a simple logic-building game was developed that allowed users to play against the browser.

3. To Do List

Allow users to add Tasks, visualize them, and delete them once they are completed using Javascript and local-storage.

4. Weather App

A simple weather application created with React.js and the Weather API. Fetch the weather data based on the user's desired location and visualize it.
